BRIQUETTE

HOW TO MAKE BRIQUETTE

1 COLLECTION

Dry all detty well well. Confirm say e dry well well.

2 MIXING

Mix all the materials together well-well

3 GRINDING

Crush the mixture with mortar or grind am till e small and fine like powder.

4 ADD BINDER

Cook the cassava starch or mix fine clay with water to form thick paste. Pour small amount of paste into the crushed waste and mix it slowly until it e damp but not wet. If e too wet, add more dry waste.

5 MOLD THE BRIQUETTES

Mould am to ball or block. Shape the mixture into small balls or blocks with your hand or mould.

6 DRY THE BRIQUETTES

Spread the briquettes on top clean plastic sheet under sun. Turn them over every few hours so e go done well

7 TURN THE BRIQUETTE TO CHARCOAL

Put the dried briquettes inside iron drum with small air holes.
Cover am small and put fire under.
When dry, store briquettes in paper or plastic
containers in a dry place.
